## EDUCATION

### Graduation

#### DDU Gorakhpur, UP

09/2018 - 11/2021

Gorakhpur, Uttar Pradesh

Bachelor of Computer Application

- Completed Bachelor of Computer Application from Deen Dayal Upadhyay Gorakhpur University, Gorakhpur.
- Created a virtual voice assistant and library management system using Python and its libraries.
- Worked on multiple projects during college time.

## WORK EXPERIENCE

### Front-end Developer

#### Decimal technologies

01/2022 - Present

Gurgaon, Haryana

Web application development

- Participated in pre-project analysis and technical assessments to ensure creation of user-friendly interface.
- Designed, developed and presented proposals to managers regarding design enhancements and costs required to develop high-quality, money-making products.
- High collaboration with team members and deliver project on time and got client appreciation.

## PROJECTS

### Personal Portfolio (09/2022 - Present)

- Created a personal Portfolio website using MEAN Stack. This is a single page and responsive website. For Frontend, I have used Angular and for server side I have used Node.js and Express.js.
- I have created a REST API using Node.js and Express.js which takes contact form data and save data to DB.
- Website URL :-** <https://portfolio-front-end-six.vercel.app/>

### AU Corporate credit card (Decimal Technologies) (03/2022 - 08/2022)

- We have developed Corporate Credit Card Web Application of AU Small Finance Bank. This app is used for issue credit card to a corporate employee. We have integrated multiple APIs for verifications and make application secure and more user-friendly. We are targeting to onboard 50k - 1L corporate credit card users in first financial year.
- Participate in all stages of project development life cycle, worked under pressure to meet the deadline.

### Jarvis (Voice Assistant) (05/2020 - 04/2021)

- Developed a desktop voice assistant using Python 3.8. This assistant is able to do many tasks such as opening any website, getting current weather details and getting current news.
- It uses voice as input.
- During Covid time, Jarvis was able to get latest Covid update using web scrapping.
